Constitutional Round Table Discussion

We are an educational organization dedicated to preserving the constitutional principal of church-state separation as the only way to ensure religious freedom for all Americans.

MOTION: Was the United States Founded as a Christian Nation?

NO!

Come join the discussion as a member of our audience.

YES!

A lively *Round Table Discussion* is planned with several prominent members of the community. As in previous years, audience participation is strongly encouraged and expected. We will be exploring whether our Founding Fathers created the United States with the intention of having a strictly secular form of government, or if it was created as a Christian Nation as many theocrats proclaim.

No matter what side of this issue you happen to be on, or if you're just curious as to what others may think and how they justify their views, please plan on joining us for this motivating and intellectually stimulating event. Come learn more about how your country works. All are welcome.
